11/15/2006 7:21	Bowling	Regina					South Carolina		<p>I am writing you today to let you know that I and my family are opposed to the mine and antisubmarine warfare sonar training exercises that are being planned off our coastlines here in South Carolina. The use of Sonar has been proven to be damaging to marine wildlife. The Navy needs to put in place and make public better outlines for protecting the wildlife and endangered species in training areas. As they stand now, we are in jeopardy of losing yet more of our endangered and other marine animals to testing by the Navy. This is not acceptable.</p> <p>Sincerely, Regina Bowling</p>
