11/22/2006 15:31	Davis	Betty					South Carolina		I urge you to reconsider locations and planning processes for mine and antisubmarine warfare sonar training exercises because of the threat to marine wildlife posed by sonar training which has proven to be extremely damaging and lifethreatening to wildlife. We MUST protect our wildlife and I strongly urge you to delay training exercises until a well thought-out plan is in place that will protect marine wildlife. Betty L. Davis
