11/2/2006 21:41	Farris	Kelly					Florida		I recently heard about scoping. I have studied Environmental Science and my gpa for that couse was 4. I am currently enrolled at FMU online studing Accounting. I have always wanted to help the enviroment in anyway possible. Now that I have heard and understand such things as Superfund Sites I am more determined. My one draw back is that I was injured a few years ago and have not been able to continue to work. I am willing to work at a cut rate if it was to help the environment but also me finacially. Please email me at jahquawn1@yahoo.com. Sincerely
