3/31/2008 18:37	<p>802 I OPPOSE the Navy's upcoming use of sonar because I am skeptical about the extent of their research. I feel that not enough comprehensive research has been done. THE NAVY MUST PROVE conclusively that the sonar does NO DAMAGE to the whales and dolphins. To date even after this report I believe the Navy has not proved that conclusively. Please heed serious attention to this concern. Thanks. ☐</p>	maia	aytac
